

**MINISTRY OF INFRASTRUCTURE DEVELOPMENT
AND
HOUSING**

GENERAL NOTICE
REGISTRATION OF CONTRACTORS

The Government of Belize (GOBZ) through the Ministry of Infrastructure Development and Housing wishes to create a registry of contractors of varying disciplines and capacities from which the GOBZ or the private sector enterprise will have access to competent contractors that have undergone some form of qualification / capacity review, which in turn would streamline procurement, and improve transparency in the industry. It is expected that the contractor registry will provide for easier selection of reliable contractors based on satisfying minimum criteria of each of the identified categories and sub-categories. Having a centralized contractor registry creates opportunity for contractor employment across the public and private sector as well as affords project owners confidence in quality of listed contractors.

Contractors will be categorized by discipline and size and are hereby invited to register under one or more of the following disciplines as may be applicable:

DISCIPLINE

- I. **General Building Contracting** – General contractors for building commercial and residential buildings capable of executing site surveying, piling, structural concrete, structural reinforcement, masonry, carpentry, drywall, plumbing, electrical, HVAC and roofing.
- II. **Civil Works / Road Construction** – capable of executing works associated with road construction and other major infrastructure developments such as land clearing, earthworks, drainage, flexible and rigid pavements, road markings and road furniture installation, piling, and structural concrete.
